

BLKN 344/ DAPP 312 Enterprise Blockchain

MICROCREDENTIAL AWARDED TO

David Ojo

LEARNING OBJECTIVE / SCOPE: Investigate how enterprise blockchains are better suited for usage in business due to features like fast transactions, tamper-proof records, security safeguards, and a diverse variety of applications; Examine the security of enterprise blockchains as a decentralized ledger that is not under the jurisdiction of a government or a financial institution; and Examine the security risks around the usage of blockchains in corporate applications, as they might be difficult to scale up due to the amount of nodes needed to run a transaction.

In partial fulfillment of the requirements for the nanodegree of

Blockchain Studies (CSC - BSTUD)
